#### **How to Access to Check In Scotland from your mobile phone:**

To use Check In Scotland, you need to be able to access the internet on a phone or tablet. The service has been designed to work across the vast majority of mobile phones that support browsing the internet. This app should work with: iOS 11 or later (via the Apple App Store); and Android 6.0 or later (via the Google Play Store). There will be several posters located at various access points within the Church displaying a QR code which should be scanned using your device. For an older phone that cannot read a QR code automatically from its camera, you can download QR code reading apps. If you cannot scan a Check In Scotland QR code, a short URL is printed on Check In Scotland posters that can be typed into your phone's internet browser. Please remember to check out once you've left the Church, although the app or website will automatically do this at 00:00 hours following your visit. If you do not have a mobile phone or cannot access the internet, you can check in as normal at the back of the Church.
